

NATHALIE REDICK

✉ nathalie.redick@mail.mcgill.ca | 🌐 nredick | 🌐 nredick | 🌐 nredick.github.io | 🎓 Google Scholar

Education

McGill University (3.75 / 4.00)

Montréal, QC | Sep. 2019 – May 2023

- B.A. in **Computer Science**, Minor in **Earth & Planetary Sciences** & Supp. Minor Conc. in **Computer Science**.
- *Coursework*: Mineralogy, Petrology, Geology in the Field, Field School I, Earth Physics, Earth System Modelling, Structural Geology, Volcanology, Algorithms & Data Structures, Data Science, Linear Algebra I & II, Probability, Statistics, Applied Machine Learning, Probabilistic Programming, Machine Learning Applied to Climate Change.

Skills

Languages: Python, Julia, C++, C, Java, DB2/SQL/MySQL, R, Bash, MATLAB, HTML/CSS, OCaml, MIPS Assembly.

Tools: Git, Linux/Unix, \LaTeX , Jupyter, AWS EC2, VS Code, Numpy, Pandas, Tensorflow, PyTorch, RESTful APIs, MongoDB.

Experience

Technology Analyst @ Morgan Stanley

Montréal, QC | Aug 2023 – Present

- Currently enrolled in the Technology Analyst training program (TAP).

Data Science Intern @ Esri

Remote | May 2022 – Aug. 2022

- Implemented an automated workflow for updating national hydrography datasets using the Multi-Task Road Extractor **deep learning** model.
- Improved the baseline model by $\sim 4\%$ accuracy to **96.3% accuracy & 0.85 MIOU** by designing new input image layers & geomorphological indicators.

Software Engineer Intern @ Blue Spiral Interactive/Albany IT Group

Saratoga Springs, NY | Jun. 2019 – Aug. 2019

- Improved in-house marketing analysis software by working with a team to build a **RESTful API** for visualising data.
- **Self-taught** Python, Git, & QGIS during the internship. Used parallel computing to **reduce execution time by 97%**.

Research

Machine Learning For Geospatial Analysis | McGill University

Sep. 2022 – Present

- Creating a guided machine learning workflow for geospatial analysis.
- Our objective is to create a tool that can be used by anyone, regardless of their technical background.

Using U-Net to Identify Landslides | McGill University

May 2021 – Present (On Hiatus)

- Implementing an image segmentation ML model to identify landslides using geophysical indicators.
- Current iteration of the model boasts **95.3% accuracy & a loss of 0.19**.

Awards

- Won both **Best Design & Most Fun & Creative Game Dev Hack** against 332 participants at McHacks9 for Pan(demic)-Man, a COVID-19-themed Pac-Man webGL game built with *Unity Game Engine* & C#.
- Won **Best Overall Hack** at MAIS Hacks 2020 by leading a team against 115 participants to create a XGBoost-driven web app (*Python, HTML/CSS*) that predicts MBTI Personality Type based on Twitter data.

Geotop 2021 Scholarship Competition (\$1500)

Geotop | 2021

- Selected based on my research proposal to *Use ML to Identify Landslides* & academic performance.

Extra-curriculars

Vice President Communications | The Monteregian Society at McGill University

Sep. 2020 – Apr. 2023

- Managed communications for the undergraduate student council for Earth & Planetary Sciences.
- Designed & built the council's website to host student resources, events, & other information.

Member | Machine Learning for Geoscience Reading Group at McGill University

Jan. 2021 – May 2021

- Participated in an informal reading group to examine current papers in ML applications in the geosciences.

Professional Development

SCIWS12 Tutorial on Machine Learning & Deep Learning | American Geoscience Union

Dec. 2020

- Attended a technical workshop on machine learning & deep learning for the environmental & geosciences.

MAIS 202: Accelerated Introduction to ML | McGill Artificial Intelligence Society

Jan. 2020 – Apr. 2020

- Selected through a technical interview to participate in a 12-week accelerated course of ML.
- **Webscrapped data** to train a **CNN** to classify geologic sample images into 4 classes; deployed as a webapp.
